AP 5020 Nonresident Tuition

(Replaces current SBCCD AP 5020)

A. Status Defined

Students who do not establish residence in this State for more than one year immediately preceding the residence determination date prescribed below are classified as "nonresident students." "International students" are students who are citizens and residents of a foreign country.

B. Authority to Determine Residence

The College President or designee shall make the determination of residence status. The Office of County Counsel shall act as the reviewing authority if differences arise.

C. Resident Determination Date

The "resident determination date" is the day preceding the first day of instruction of the semester or term during which the student proposes to enroll.

D. Residency Reclassification –

In order to establish residency, it is necessary that there be a union of act and intent. To establish residency, a person capable of establishing residence in California must couple his or her physical presence in California with objective evidence that the physical presence is with the intent to make California the home for other than a temporary purpose.

1. A student seeking reclassification as a resident, who was classified as a non- resident in the preceding term, shall be determined financially independent or dependent in accordance with Ed Code 68044.
2. One-Year Waiting Period – The one year residence period which a student must meet to be classified as a resident does not begin until the student is both present in California and has manifested a clear intent, as delineated on the College's approved residency determination form, to become a California resident.
3. Reestablished Residence – If a student or the parents of a minor student relinquish California residence after moving from the state, one full year of physical presence, coupled with one full year of demonstrated intent to be a California resident, is required to reestablish residence for tuition purposes, except as provide in Ed Code section 68070.
4. Physical Presence – A person capable of establishing residence in California must be physically present in California for one year prior to the residence determination date to be classified as a resident student. Physical presence within the state solely for educational purposes does not constitute establishing California residence regardless of the length of that presence.

5. Intent – Intent to make California the home for other than a temporary purpose may be manifested in many ways. No one factor is controlling. Objective manifestations of intent to establish California residence include but are not limited to (1) ownership of residential property or continuous occupancy of rented Property in California, (2) registering to vote and voting in California, (3) licensing from California for professional practice, (4) active membership in service or social clubs, (5) presence of spouse, children or other close relative in the state, (6) showing California as home address on federal income tax form, (7) payment of California state income tax as resident, (8) possessing California motor vehicle license plates, (9) possessing a California driver's license, (10) maintaining permanent military address or home of record in California while in armed forces.

E. Tuition

The Board shall determine the nonresident tuition fee prior to February 1 each year. Fees are due and payable ~~prior to~~upon completion of the course registration process.

F. Admission Errors

Nonresident students subject to payment of nonresident fees, who have been admitted to a class in error without payment of tuition, shall be excluded from attendance until fees have been paid.

G. Falsification of Residence

Nonresident students, who have been admitted to a class without the payment of the nonresident fees based on the submission of incomplete or falsified information either by or for them, are subject to immediate exclusion.

H. Exemptions, including:

1. Students who are concurrently enrolled in K-12 classes are exempt from nonresident tuition.
2. Students who are members of the military services are exempt from nonresident tuition for one year after their date of assignment in California. After that period, they must take steps to establish residency or pay the nonresident tuition.
3. "Covered individuals" who meet the eligibility criteria as defined in VACA are exempt from nonresident tuition.

Veterans Access, Choice, and Accountability Act (VACA H.R. 3230)

In August 2014, President Obama signed the Veterans Access, Choice, and Accountability Act of 2014 ("VACA Act"), into law (Public Law No.: 113-146). Section 702 of the VACA Act (38 U.S.C. 3679(c)) requires the U.S. Department of Veterans Affairs (VA) to disapprove programs of education under the Montgomery GI Bill-Active Duty (MGIB-AD) and Post-9/11 GI Bill education benefit programs (Chapters 30 or 33, respectively, of Title 38, U.S. Code) at institutions of higher learning if the school charges qualifying veterans and dependents ("covered individuals") tuition and fees in excess of the in-state rate for resident students for terms beginning after July 1, 2015. A "covered individual" is defined in the VACA Act as:

d. After expiration of the three year period following discharge or death as described in 38 U.S.C. 3679(c), a student who initially qualifies under the applicable requirements above will maintain "covered individual" status as long as he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters or terms) at the institution, even if they enroll in multiple programs and shall continue to be exempt from paying nonresident tuition and other fees as described in the updated fee policy described below.
