AS Scholarship selection- Timing ended up being a challenge with a name due by the end of spring break. I reviewed approximately 15 applications. Chose a top three and reviewed with two members of the Exec Committee. Unanimous choice was Taylor Benedictis. He will receive 250.00 scholarship.

Hiring Committees- there are quite a few hiring committees being formed or have been formed. It has kept me busy for sure. If you have been assigned, be sure you remain alert for further communications on dates and times of committee meetings and ensure your ability to participate. If ever in question, follow up with the Dean of the position being hired. Currently you will see English, Communication Studies, Physics/Astrology and CIT being flown for hiring and there are more to come.

Spring Plenary April 15-17, 2021. Plenary Invites should have been received today, so jump on the app and begin your selection of events.
