

SWOT EFFICACY PILOT

Program Review Committee

Academic Senate

11/16/22

SWOT EFFICACY SUMMARY

The SWOT Program Efficacy Process (S-PEP) is a new process and replaces several of the existing reports; the annual EMP Sheets, the 4-year Program Efficacy, and the 2-Year CTE Mini-Efficacy. The SWOT Efficacy is designed to be 4-6 pages in length

SPRING 2023 PILOT

- Asking for Senate support for a pilot of the SWOT Efficacy
 - To work through the process with volunteers and gather feedback
 - To increase understanding across campus about the new process
 - The intent is to align the Efficacy and Needs Assessment in FA23
 - There have been many requests to align processes
 - 23/24 Calendar and beyond do not have an April In-Service. A fall process will launch during fall in-service and complete during spring in-service

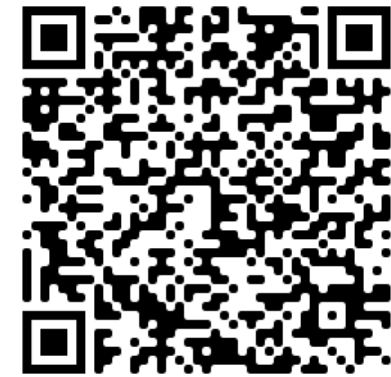

VOLUNTEERS NEEDED

WHAT IS INVOLVED

- Volunteers need to commit to a meeting during in-service on 1/12/23 and 4/11/23
- Volunteers will provide constructive feedback to the committee on the process, instructions, and training
- Volunteers should be willing to share their experience with the pilot with the campus and mentor other areas in the fall. (Volunteers will not have to redo SWOT Efficacy in Fall)

HOW TO VOLUNTEER

- Fill Out a quick Google Form

OR

- Email Program Review Chairs Celia Huston and/or Joanna Oxendine

THANK YOU

Program Review Committee

Chairs:

- Dr. Celia Huston
