

**EXTEND** AB 928 steering and ad hoc committees

**Purpose:** To explore and implement the local implications of AB 928 at SBVC. AB 928 impacts the local GE and the current transfer GE patterns by streamlining them to a single transfer pathway, named the Cal-GETC. The Curriculum Committee proposes to extend the work of the steering and ad hoc committees in order to complete the full implementation of AB 928. The following are some items still pending :

- Defining/adopting criteria and standards for local GE area: Lifelong Learning & Self-Development
- Data-driven review of course enrollments and course content to ensure appropriate local GE applicability
- Resolution to address local GE course alignment with Cal-GETC course approvals
- Review and certify Cal-GETC compliance with applicable Associate Degrees for Transfer (ADTs)
- Auto-enrolled ADT implementation (student-facing factors)

**Length of the committees:** Until full implementation of AB 928 is in compliance with state-wide guidelines.

**Memberships:***Steering Committee representation:*

- Curriculum Committee faculty co-chair
- VPI
- Articulation Officer
- Curriculum Coordinator
- General Counselor & Curriculum faculty
- General Counselor & Senate
- Instructional faculty & Curriculum faculty
