

INSTRUCTION

Congratulations to one of our Political Science adjuncts, Lisa Henkle, who received her doctorate in Public Administration from the University of La Verne. Her dissertation was a case study of the El Monte Community Building Initiative.

In other news, Ms. Van Le, a Student Worker at the San Bernardino Valley College Child Development Center for over five years, was born in Vietnam and has pursued an education in America in order to provide an example to her children that dreams do come true. Ms. Le's pursuit of an education has opened many doors to opportunities. She has been named a recipient of the Bright Futures Scholarship, which she will use to continue her education so as to empower, equip and impact the next generation of young learners. She is warm, nurturing, and an indelible asset to the center, staff, and most of all, the children. Congratulations, Ms. Le, we wish you well in every endeavor, knowing that you will continue to strive to achieve goal after goal. Bravo!

The 2014 Teach-A-Rama *Through the Looking Glass* was held at SBVC on Saturday, September 20, 2014. Approximately 80 educators, professionals and community members from San Bernardino City Unified School District, Fontana Unified School District, Redlands Unified School District, San Bernardino Community College District, Compton Unified School District, San Bernardino Charter City Unified School District, Rialto Unified School District, Palm Springs Unified School District, San Diego Unified School District,

Riverside Unified School District, and Los Angeles Unified School District participated in this event. The purpose of this gathering was to look at the

different cultural elements students encounter in the classroom, providing educators with a closer look at the factors currently impacting minority students.

The Office of Instruction at San Bernardino Valley College sponsored Teach-A-Rama, working in partnership with representatives from the national office of Phi

Delta Kappa sorority and the Delta Rho chapter for the Western Region.

Following the welcome, Dr. Haragewen Kinde (Vice President of Instruction, SBVC), Joyce Payne (Basileus with Delta Rho chapter), and Dr. Margaret Hill (Board Member for the San Bernardino Community College District) talked about the purpose of the event.

Presenters included: keynote speaker, Dr. Louie Rodriguez (Professor at California State University, San Bernardino and author of *The Time is Now*), Euricidi Fitz (PAR Consultant with San Bernardino City Unified School District), Keisha Handy (Academic Coach with Monterey Elementary School, part of San Bernardino City Unified School District), and Dr. Kennon Mitchell (Assistant Superintendent of Student Services with San Bernardino City Unified School District).

APPLIED TECHNOLOGY, TRANSPORTATION & CULINARY ARTS

TECHNICAL BUILDING IS NOW CALLED "APPLIED TECHNOLOGY" BUILDING

"Applied Technology" signs were installed on the west wall (main Division entrance facing Esperanza Avenue) and the northwest wall along Esperanza Av-

enue of the former Technical building. The Applied Technology, Transportation and Culinary Arts Division is proud to have its own distinction to signify the availability of CTE programs offered at SBVC to our community. Thanks to the efforts of Dr. Gloria Fisher, Interim President, Dr. Haragewen Kinde, VP of Instruction and Mr. Scott Stark, VP of Administrative Services, for making this happen.

SBVC PARTICIPATED AT THE CALIFORNIA WATER ENVIRONMENT ASSOCIATION (CWEA) WORKSHOP

On August 22, 2014, the Water Supply Technology (WST) Program, through its National Science Foundation

From left: Peggy Weber, Anthony Lu, Melita Caldwell-Betties, Dr. Kathleen Rowley, Interim Dean Albert Maniaol and SBVC Interim President Dr. Gloria Fisher.

President; Dr. Kathleen Rowley, Director of Grant Development and Management; Albert Maniaol, the Division Interim Dean; along with Melita Caldwell-Betties, NSF Grant Principal Investigator; Peggy Weber, NSF Grant Program Coordinator and Anthony Lu,

NSF Bridging the Water Divide Grant, sponsored a table at the San Bernardino County Water Conference held at CSUSB to promote and showcase the Division's WST program. In attendance were Dr. Gloria Fisher, Interim President; Dr. Kathleen Rowley, Director of Grant Development and Management; Albert Maniaol, the Division Interim Dean; along with Melita Caldwell-Betties, NSF Grant Principal Investigator; Peggy Weber, NSF Grant Program Coordinator and Anthony Lu, CTE Transition Grant Program Coordinator. Highlight of the conference was a "weather pattern and drought-cycle" presentation from its keynote speaker, Mr. Bill Patzert, Oceanographer for the Cali-

DIVISION STAFF ATTEND BLOOMINGTON HIGH SCHOOL FUTURES NIGHT

Division Staff attended the 14th Annual Bloomington High Futures Night for 2014 with a goal of providing all students and their parents a chance to investigate college and career opportunities.

Anthony Lu and Peggy Weber work the table at the Bloomington HS event.

Brochures and information materials on the various CTE programs at SBVC were distributed to the high school participants and their inquiries were addressed during the event.

STAFF SPOTLIGHT: JERRY CHASE, ADJUNCT FACULTY

Jerry Chase not only instructs Electronics/Electricity students here at SBVC but at age 77, he is also an avid competitor in Track and Field events. Jerry has been with SBVC for almost 16 years and a substitute teacher at Palomar High School in Lake Elsinore. In his spare time, Jerry participates in State and National events in track and field for the "Oldlympics." He competes in shot-put, javelin, and long and triple jumps, to name a few. He will be attending a national competition in Minnesota, vying for a State of California medal.

Jerry Chase, Adjunct Faculty and track and field athlete.

Jerry usually tells a couple of jokes before he starts his class session. He does this to "lighten things up for my students and for them to realize the outside world needs to be set aside, even for a short time."

SUCCESS STORY

Brandon Lea graduated this past May with his AA in Culinary Arts. Along with his degree, he also earned certification in five specialties: Dining Room Service, Food Preparation, Food Service, Dietetic Aide and Culinary Arts (both “front of the house” [maitre d’] and “back of the house” [chef]). The certificates are awarded by the National Restaurant Association.

Brandon is currently holding down not one, but two jobs. He is with Chipotlé Mexican Grill and, as of August 2014, with the Sun Room here on campus! He’s a Professional Expert putting in 19 hours a week.

“It’s really nice to be able to keep working with Chef Meyer,” says Lea, “and at the same time, Chipotlé has me in their management trainee program. I like that they have high standards and a great culture. And 95% of their promotions are from within the company.”

Well done, Brandon. We wish you all the best!

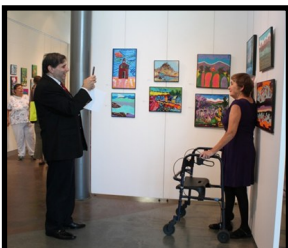

MANUFACTURING DAY U.S.A., OCTOBER 3RD

Manufacturing Day is a nationwide celebration designed to expand public knowledge about this important sector. It brings attention to manufacturing careers and manufacturing’s value to our national and local economies. SBVC recognizes the importance of Manufacturing Day and so hosted around 200 high school students from the San Bernardino Unified School District on October 3rd. A keynote address from an industry partner and demonstrations of glass blowing, welding and machine trade process highlighted the event.

Our sincere appreciation to Dr. Kay Weiss and Mr. James Stewart of the Arts and Humanities Division for hosting a tour and demonstration of their glass blowing studio for the visiting high school students.

GRESHAM GALLERY SHOW

The most recent show in the Gresham Gallery featured the work of Rick Cummings and students from the School of Hope. School of Hope is an adult school seeking to enrich the lives of adults who have various disabilities. The reception took place on September 2nd.

The current show features the work of John Brownfield, artist and retired University of Redlands professor. The show runs through October

3rd. There was a reception on the evening of September 30th.

DR. BATALO RECOGNIZED AS INLAND EMPIRE “EDUCATOR OF EXCELLENCE”

On Saturday, June 14th, Dr. Mandi Batalo, Chair of the Art Department, was one of nine Inland Empire educators recognized as an “Educator of Excellence” at the First Annual Educators of Excellence Celebration. Honorees at the event were acknowledged for making a meaningful difference in the lives of their students and communities through their positive influence inside and outside the classroom. Each of the nine educators received certificates of recognition from the California Assembly and the U.S. House of Representatives and a custom designed pin. SBCCD Board of Trustees member, Dr. Gloria Macias Harrison, was also an honoree.

PERFORMING ARTS GETS READY FOR FALL SEASON

Performing Arts is preparing several programs that will take place in SBVC’s now-renovated historic Auditorium. We are looking forward to a Foundation fundraiser, which will feature the San Bernardino Symphony Orchestra, performing with our own *Voci Soli* and *College Singers* ensembles. Soon after this grand reopening event, our theatre program will take the main stage for a performance of Shakespeare’s *Romeo and Juliet*. Performance dates are November 20th through November 23rd.

Classified Professional

PROFILE

Debra Moses

Debra Moses holds down the fort as the Secretary II handling reception and secretarial duties for CalWORKS and Workforce Development on the second floor of the Campus Center.

Before she joined us, she had been with Los Angeles County for 16-1/2 years working for the welfare office. She started out in a clerical role and then moved on to work as a public guardian representing the interests of deceased clients and a public administrator on behalf of living ones.

Debra started work right out of Jefferson High School and had children early on. She never had time to pursue college.

She left L.A. County in 1986 to be a full-time mother for the next four years, bringing up her youngest daughter. That daughter now works for the DMV in Rancho Cucamonga. Debra's oldest works for Bank of America.

In 1990 Debra was ready to return to the workforce and says, "I saw this tiny ad in the paper for San Bernardino Valley College for a secretary and applied." She ended up getting hired and working for the next three years in the printing office.

After that, she was invited to consider working for a newly funded grant program. Two different faculty members had been awarded grants and with her pick of which one to work for, Debra chose the grant that established the STAR program here at SBVC. After 14 years with STAR she moved over to her current position with Workforce Development.

Debra and her husband have lived everywhere from L.A. to Riverside and Rialto. Not long ago they bought a home in Hemet.

Her husband still does part-time construction and the two of them are looking at retiring to Hemet in the future.

Faculty

PROFILE

Michelle Spahn

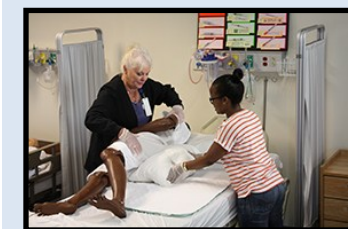

Michelle Spahn is a San Bernardino Valley College alumna. In fact, she has two associate degrees from SBVC, the first one an AA in Theatre Arts and the second an AS in Nursing.

She loves theatre and has been in 15 productions with the San Bernardino Civic Light Opera, and "I'm still a really big fan," she says.

Her interest in theatre came from her parents, both of whom performed in cabaret shows from Alaska to Panama. Her father was an Air Force colonel. As a youngster she accompanied her parents to some events and met some of the big stars of that era, including Boris Karloff and Mary Martin.

Ms. Spahn's nursing experience spans almost 37 years and includes specialties in critical care, coronary care and hospice. She has also been a camp nurse. She is a long-time Red Cross volunteer and while taking a 10-year break from full-time work to bring up her children, she found time to serve on several nonprofit boards.

Her husband Bill is a family practice MD and yes, they met "on the job" at the old San Bernardino County Hospital, where Bill was a Resident and

Michelle was taking EMT training.

In 2005 Michelle started at SBVC, working two days a week. She became a full-time faculty member in 2008.

"A busy day will see me doing 100-plus skills rotations, along with computer work and homework review. Right now things are fairly calm as the students are on clinical rotation," says Spahn.

Michelle is also an active committee volunteer, including such nursing-specific committees as "PEAR" (the Promotion-Entrance-Attrition-Retention committee) and the Skills Lab committee, as well as campus committees, such as the Scholarship Committee and Spotlighting Our Success.

NURSE STRIPING CEREMONY

Nursing students who completed two of the four semesters received their uniform stripe celebrating their half-way mark in program completion. A fourth semester student pinned the stripe on the uniform of each third semester student in a heartwarming ceremony held on August 25th.

STEM STUDENTS VISIT UCR LABORATORIES

Students in CHEM 151, second semester general chemistry, are part of a learning community. On Sept. 18, these students visited UCR, toured some research labs, and listened to a panel of students discuss transfer, research opportunities, and graduate school planning. One of the UCR students on the panel and leading tour of his laboratory was Alberto Corona, an alumnus of the SBVC STEM program and former Supplemental Instruction Leader. This activity was supported by funding from a U.S. Department of Education Minority Science and Engineering Improvement Program (MSEIP) grant, the San Bernardino Valley College Inland Empire MSEIP. The SBVC students returned to campus and expressed their enthusiasm for the experience.

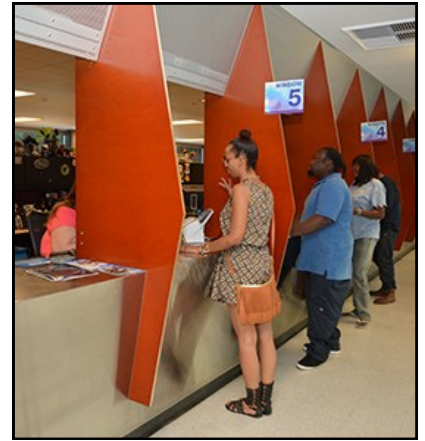

STUDENT SERVICES UPDATES

ADMISSIONS & RECORDS

Since our last update, the “add” and “drop” period without a “W” notation has passed. During this time we have received over 100 late add petitions for various reasons, the most common being students dropped for non-payment. We are in the process of creating a grading and enrollment information packet for faculty. We are also looking to create an Admissions and Records timeline that will include the deadline dates for items such as: admission applications, graduation applications, term deadlines, and priority dates for a full academic year.

It is our goal to inform students and encourage them to plan ahead. Since the last update, we have processed 881 admission applications for the fall 2014 term and 380 for spring 2015. In addition, April Dale-Carter attended the new directors’ conference in Sacramento on September 8-10. This was a great opportunity for her to develop relationships and network with more experienced A&R directors and deans. She now has several colleagues that she can call upon to pick their brains on various topics.

ASSESSMENT

The Assessment Center tested 33 Middle College High School Freshmen (MCHS). The Assessment Center also had 1,577 student contacts. The Assessment Center continues to assess students who want to attend late start sessions. Carol and Arleen are preparing for the month to come.

CalWORKs AND WORKFORCE DEVELOPMENT

More than 500 job seekers had an opportunity to talk to 30 employers from different industries (health care, law enforcement, hospitality, manufacturing; just to name a few) at the East Valley Job Fair held on Thursday, August 28, 2014 at San Bernardino Valley College in the Business Building Room 100. The event was a collaborative effort between the Workforce Development Department and San Bernardino Valley College. Due to the great attendance, both organizations have planned to work together on future employment activities.

The department offers employment workshops to CalWORKs, WorkAbility III and SBVC students every Thursday from 11:30 a.m. to 3:00 p.m. in the Business Building, room 125. Students will have the opportunity to develop resumes and cover letters, receive employment leads; online job search, and receive current workforce trends to enter the workforce.

The department staff are doing an excellent job serving our students and clients; thank you.

Continued on page 7

HIGHLIGHTS FROM THE PAST MONTH

Without a doubt, two of the biggest highlights of the past month were our two Law Enforcement Academy graduations. The Extended Academy graduation was held in our newly renovated Auditorium on Saturday,

September 6th. This was followed by the Basic Academy Graduation for Class #194 on Thursday, September 11th, held at the Rancho Cucamonga Civic Center in the Abundant

Living Church. Here are five photos from each event.

Our other big highlight was the start of the accreditation team site visit. Next issue we'll have more coverage of their visit and its outcome.

Above: Our Site Visit Team. Below: Reception for the team in the Sun Room.

COUNSELING

A full range of services continue to be provided to the general population with a special focus on assisting late start registrants. Initial education plans and expanded orientation have been provided to all new students in compliance with the Student Success Act. Expanded orientation for veterans will be conducted at the end of the month.

Meanwhile, continuing students have been given assistance for their comprehensive education plans. Informational meetings for nursing students continue to be delivered with an emphasis on new application procedures for students with previous college units. Classroom presentations about counseling services have also started, and counselors teaching SDEV classes have invited Health Services personnel to conduct presentations on Strengths' Quest to SDEV students.

All international students have been enrolled in the SEVIS database and are in compliance with the USCIS regulations. Staff also attended the Conference on Student Success and Support for professional development training.

FINANCIAL AID

Financial Aid has announced that the office will be going virtually paperless. Students can now expect to receive award letter notifications as well as initial missing document emails, sent to them at their school email address instead of via postal mail at their home address. Not only will this save the office thousands of dollars in postage costs, it will also allow students to receive updates on their Financial Aid files more quickly and securely.

As a result of implementing Auto-Packager, the financial aid office was able to award an additional 619 students so far this semester.

A total of 1,234 students has received their first disbursement for the 2014/2015 award year totaling over \$1.4 million.

The Financial Aid office has already received 25,612 FAFSA applications for the 2014-15 academic year as of September 15, 2014. Comparatively, we received 30,743 FAFSA applications for the entire 2013-14 academic year.

All SBVC students are reminded to complete either the 2014-15 FAFSA application (citizen and eligible non-citizen students) or the 2014-15 California Dream Act application (AB540 students) to automatically be considered for a 2014-15 Board of Governors (BOG) fee waiver.

As of September 12, 2014, the California Student Aid Commission (CSAC) has awarded 2,335 Cal Grant awards to SBVC students, 83 of which are for eligible AB540 students. The Financial Aid Office has received Cal Grant funding and will be disbursing a total of \$272,028 to eligible students on September 19, 2014.

All students who have not already completed their 2014-15 FAFSA Application are encouraged to do so as soon as possible.

The 2014-15 SBVC Foundation Scholarship application will open in October.

OUTREACH AND RECRUITMENT

The Outreach and Recruitment team has been busy attending events that involved handing out useful SBVC information.

STAR PROGRAM

STAR Program is no longer taking applications for Fall 2014. STAR will begin accepting applications for Spring 2015 in December 2014.

TRANSFER AND CAREER SERVICES

UC Transfer Admissions Guarantee Application Workshop

9/5/14 11-12:30 p.m. 9/17/14 4-6:00 p.m.

National University Representative, Table on Campus Quad Area

9/11 & 9/25/14

Cal Baptist University Representative, Table on Campus Quad Area

9/30/14

UCLA Representative Tremeal Bradford will make 10 classroom presentations on September 18, 2014 at SBVC. The goal of the presentations is to give students the admissions information they need for transfer to UCLA. He will be presenting to a range of courses, including Philosophy, Digital Logic Design, Anthropology, Student Development and English.

VETERANS RESOURCE CENTER

The traffic in the resource center has seen a significant increase since the last report. The VA Certifying Official has certified over 200 veteran students for their VA educational benefits and has serviced approximately 250 students since registration began. The VA Educational Counselor has seen 90 students since the last report.

The health and wellness counselor has seen 57 students since the last report; this number has remained the same due to limited slot availability. The Admissions/Records Specialist certifying official has seen a total of over 200 students since the last report.

Overall, the resource center has had 400 students pass through its doors since the last report. Student workers and staff conducted weekly trainings in an effort to provide ever-better customer service.

FOSTER & KINSHIP CARE EDUCATION (FKCE)

The Foster & Kinship Care Education Program has successfully completed 40 classes and served 102 foster and kinship participants since the beginning of

August 2014. It appears there has been an increase in participation due to the emphasis by Children and Family Services on Caregivers meeting their training requirements to improve the safety of children in out-of-home care.

Kinship care continues to increase as children are living in informal, voluntary and formal kinship care arrangements. This has presented some challenges for the kinship caregivers. The FKCE trainings provide information and resources to assist these caregivers to give the best care they can to children whose parents cannot care for them. "Parenting is a labor of love. It is being loving without expectations."

FKCE held a preliminary meeting to begin developing and laying the foundation for community partnerships that support San Bernardino Valley College's Guardian Scholars Program for foster youth. A representative from Foster Youth Services and the Children and Family Services (CFS) Educational Liaisons office attended.

One of the outcomes of this meeting was to begin the groundwork for the Guardian Scholars Conference/Luncheon. A future meeting is being planned to include representatives from the County of San Bernardino Independent Living Program, California Youth Connection, California College Pathways, Children's Network, Children's Fund, Foster Club, CASA (Court Appointed Special Advocate), CWA (Child Welfare Attendance) along with ILP Peer and Family Assistants. The conference/luncheon is tentatively scheduled for May 2015 and will provide a platform to inform the community about what the program has to offer youth in the foster care system who wish to pursue a college education.

Since the beginning of the fall semester there have been 125 new foster youth contacts. Out of those, 25 foster youth have visited the Foster Youth Services office located at the Campus Center Room 208 for assistance with registration, orientation, assessment, textbooks, questions regarding Financial Aid and general information about the college. With the existing foster youth on campus (35), this brings the total of foster youth who have come to the FYS office to 60.

YOUTH EMPOWERMENT STRATEGIES FOR SUCCESS/ INDEPENDENT LIVING PROGRAM (YESS/ILP)

Thirty-two high school foster youth have been referred by the San Bernardino County Independent Living Program to begin the 2014-15 San Bernardino Valley College YESS/ILP 14-week Life Skills classes on Wednesday, September 17, 2014. These classes include a module on Daily Living Skills, Education, Employment, and Financial Literacy.

LIBRARY & LEARNING SUPPORT SERVICES

During the first month of classes the Library has seen an average of 2,864 visitors a day Monday through Thursday, 728 on Fridays and 264 on Saturdays.

Library hours are:

Monday through Thursday, 8:00 a.m. to 8:00 p.m.

Friday, 8:00 a.m. to 5:00 p.m.

Saturday, 10:00 a.m. to 2:00 p.m.

DSPS

The DSPS staff continues to support our students in their academic goals through the services it provides. Interim Coordinator Marty Milligan attended training for DSPS Directors and Coordinators. Information gained from all meetings and trainings helps to enhance the services we offer our students.

FOUNDATION

October 17th is just around the corner and two historic events will take place on the SBVC campus. Have you purchased your VIP ticket yet?

ATHLETICS COMPLEX GROUND BREAKING

Our special day kicks off at 4:00 p.m. with the ground breaking of our new, state-of-the art, Athletics Complex. The new facilities are expected to open partially in June 2016, with the remaining facilities to come on line later that year. The first portion will include the main gym, housing three floors

and 108,509 square feet of space for two gyms, workout facilities, locker rooms, classrooms and offices. Phase two will include Grand Stand Bleachers, various field buildings and landscaping that will include teachable garden spaces and water features.

As time goes by and the plantings grow and mature, these areas will offer serenity areas where students, faculty and staff can take breaks.

AUDITORIUM GRAND RE-OPENING

Join us for the Grand Re-Opening of the SBVC Auditorium on Friday, October 17th. The San Bernardino

Symphony, with lead violinist William Hagen (just 20 years old) will usher in a new era, as they perform pieces from *Tchaikovsky* and *Dvořák*. They will be joined by SBVC's own *Voci Soli* and *College Singers* ensembles, led by music faculty member Matie Scully. An expanded stage, restored stained glass, and a reconditioned wood-paneled ceiling are just some of the enhancements to our grand and historic auditorium. Lighting and technology upgrades bring the auditorium up to date, including viewing platforms for wheelchairs, and handicap accessible ramps and elevators.

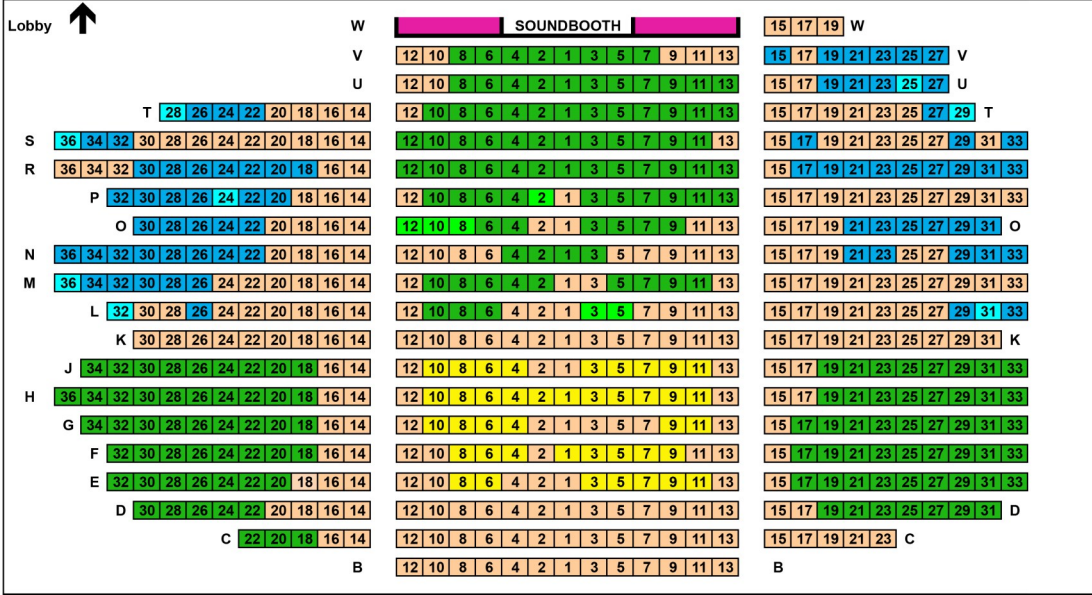

With seating for nearly 600, this historic building is ready to show San Bernardino and the Inland Empire exactly how to entertain! Tickets, program ads and sponsorships are available!

Ticket Prices:

Students \$10 (student ID required upon check in);
General Public \$25; VIP \$100 (with private reception)

The VIP Reception starts at **5:00 PM** and we will have hors d'oeuvres created and served by our culinary arts students, along with wine, beer (with proper ID) and non-alcoholic beverages available for those VIP ticket holders and sponsors. The San Bernardino Symphony starts at **7:00 PM** sharp. Coffee and dessert will be provided at the end of the evening for all of our guests.
