# Dashboard Tips and Tricks
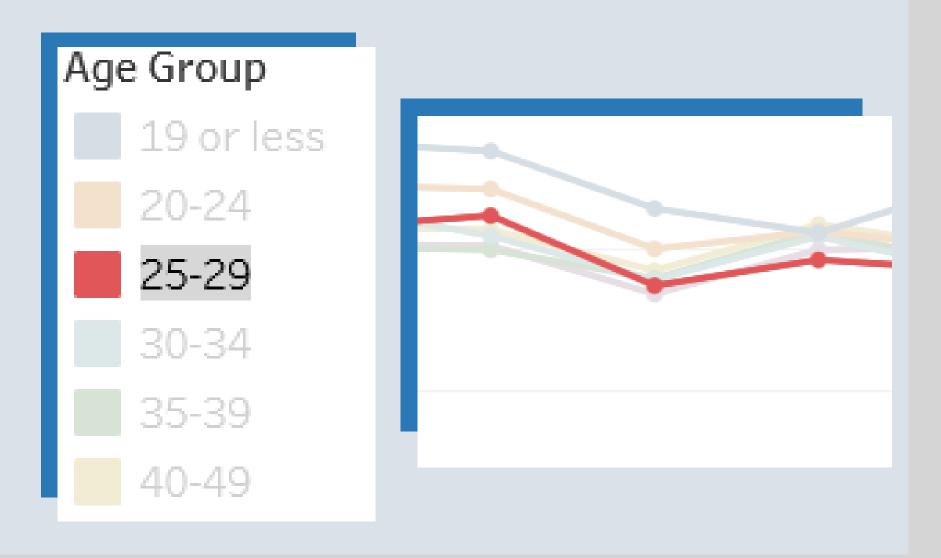

Filters

- Provide a narrower view of the data
- Allow for intersectionality views of the data, e.g. Female Veterans

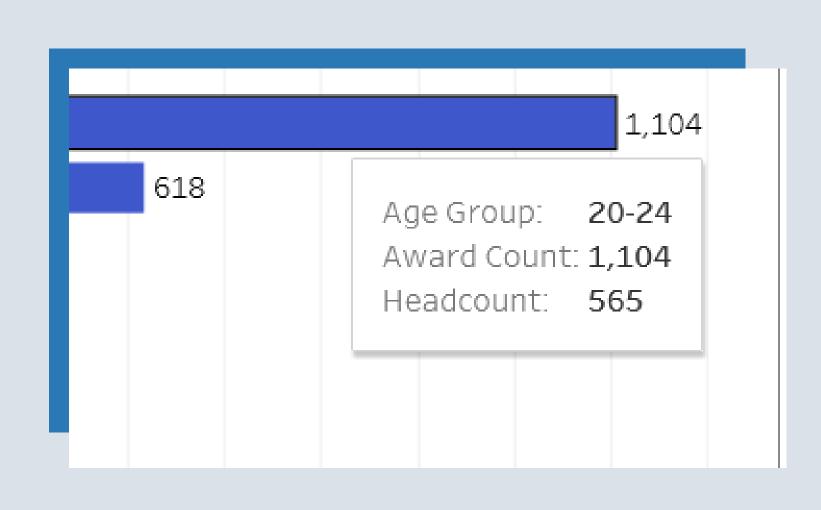

Legends

- Allows for "isolation" of a category
- Work best with charts with multiple overlapping categories

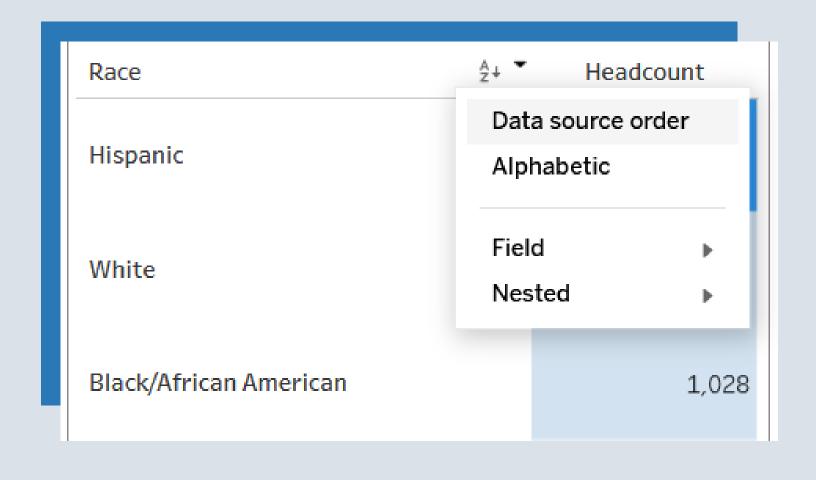

Tooltips

- Display more information in a pop-out style box
- Hover over the chart to display

Sorting

- Change the order of the information displayed
- Use the axes to sort the chart/table
