

Writing Center Support and Performance Measures

The chart shows that students who were enrolled in a basic skills course during summer 2018 and utilized the Writing Center for reason code(s) composition, tutoring, grammar, English 914 or English 015 (N=60) had much higher success and retention rates than basic skills students who did not visit the Writing Center (N = 229).

Out of 290 English basic skills students, 21% utilized the Writing Center during summer 2018.

A total of 161 students visited the Writing Center for any reason code (any course) during summer 2018. These students had higher performance measures than the students who did not utilize the Writing Center (N = 9,520).
