

Accreditation and Outcomes Committee
Special Meeting | March 31, 2020 | 3:00–4:30 p.m.
via Zoom, <https://cccconfer.zoom.us/j/246298366>

At the meeting Accreditation and Outcomes Committees need to take action to:

1. Establish a cut-off date for feedback on the current draft.
2. Decide if/how there will be any further ISER forums/workshops
3. Select and ISER Timeline

Agenda

1. Impact of COVID-19 on the ISER process and current timeline. The disruption of normal work patterns has impacted the ISER in the following ways:
 - a. The final draft will not be complete by 4/1/2020.
 - b. Feedback on current draft still in progress.
 - c. There is no opportunity for a F2F forum/workshop on 4/8/2020.
2. ISER Forum/Workshop
 - a. Do we need another ISER event or are the past forums and the current reviews enough?
3. ISER Timeline - At this time our visit is still scheduled for 10/12/2020, but that could change by May 2020 if it looks like the COVID-19 “stay-at-home” orders are still in place.
 - a. We could still meet our current timeline by putting a final draft w/o complete evidence out on 4/17/2020 & use the current draft for the forum/workshop on 4/8/2020 (if needed).
 - b. We could do first reads in May 2020 and second reads in August 2020. We would be submitting the report a week late to ACCJC (assuming date of visit doesn’t change) but ACCJC said that would be alright.
