Institute Set Standards – Review and Recommended Response	Celia shared our current standards and briefly discussed the differences between each. She then shared which standards we did not meet. Some corrections were noted and changes were made accordingly. As we came to each area that we fell behind on, Celia made notes of the suggestions that were given as we move forward.
Outcomes Update	Bethany shared that they pushed back the dates for this semester due to the current load the chairs are dealing with. This will give them an additional 2 weeks to do their work. They are still working on the SAO maps and will have them ready soon. There was some conversation regarding how to move forward and what some of the options may be.
Other	James is retiring! Everyone wished him well as he departs our campus at the end of this month.
