

SLO Software Forum

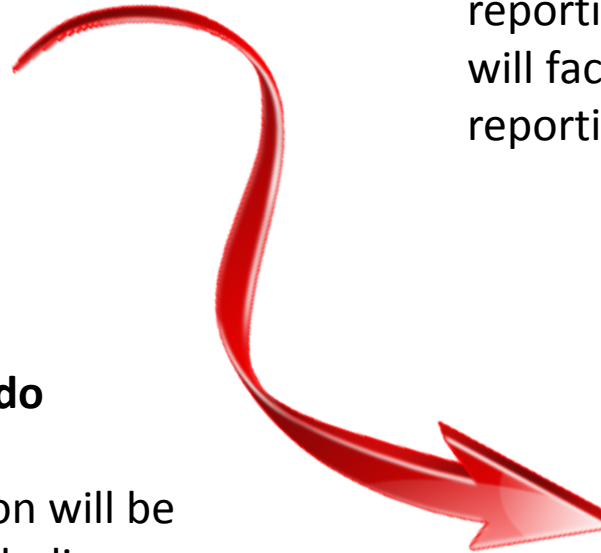

GOAL for 2013/2014

Move SLOs from paper reporting processes to online reporting processes which will facilitate tracking and reporting of SLOs

You mean I have to do everything over?

No: Available information will be uploaded for faculty including SLOs, Course Mapping and Aggregate Course Assessment Results.

2013/2014

- Continue to use aggregate course score for the immediate future.
- Run an initial assessment of Core Competencies based on Course Mapping.
- Map Program SLOs
- Run an initial assessment of Programs based on mapping. Programs would be free to create additional assessments of their own design.

San Bernardino Valley College SLO Course Summary Report Form
 DIVISION NAME: Mathematics, Business & Computer Technology
 Department: Business Calculations
 COURSE NAME AND NUMBER: BUSCAL 050

Assessed FA2011/SP2012

Student Learning Outcome	<ul style="list-style-type: none"> • Students will demonstrate a basic knowledge of the basic percentage calculation formula. Solve for any one of percent rate, portion, or base, given the other two quantities with numbers given for calculating a gross profit margin, expressed as a percentage rate. • Perform basic calculations of the real property taxes. Having reviewed information on tax assessment ratios, student will be able to differentiate between market value and assessed valuation for property tax calculations. They will use information taken from the Assessor's of Office of a given county, on a given parcel and calculate the assessment ratio and the real property taxes due for that parcel.
Assessment Method	20 Question Multiple Choice Pre-Test and Post -Test.
Criteria What is "good enough"? Rubric	The use of a pre-test/post-test is concurrent with the other methodologies within the Division – illustrating complete knowledge of the subject and it clearly ties to the existing SLO's.
What % of students met criteria? Is this % satisfactory?	The average on the pre-test was 37% versus the average on the post test being a 83% . Using a success rate of 70% or letter grade of a "C", 35 of the 40 students (88%) have achieved the desired learning outcomes.
Are trends evident? Are there learning gaps?	No trends and/or learning gaps are apparent at this point in time.
What andragogy, content, or structure strategies might improve outcomes?	Having a success rate of 88% is great and any needed andragogy, content or structure strategies will be considered at this point in time.
Will you change assessment method and/or criteria?	No changes will be made to the assessment method or criteria.
Did learning outcomes improve?	Being that this is the first time being assessed, we will assess again and then compare and contrast results. As for the pre-test versus post-test results, we can conclude that the SLO's were significantly improved (37% versus 83% class averages).

Today's Forum

- Invited Blackboard, eLumen and CurriUNET to demonstrate SLO Software
- Presenters have been asked to limit the presentation to what faculty would actually have to do to enter an SLO Assessment Score
- Presenters will also show reporting features

Things to Keep in Mind

- Accreditation does require the campus to move to Student Level Reporting.
- Student Services and Administrative Services have to report on SLOs also
