Total number of responses to surveys for the Library workshops 2012-2013: Total 116
28% of the students made positive comments beyond the overall good or "yes" response to the short questionnaire that was administered at the end of each of the 1/2 hour workshop evaluating and reflecting on what they had learned. However, of the 116 student responses, 4% commented that they did not understand an aspect of the workshop, for example, that they did not comprehend that database searches for their classes assignments resulted in more reliable information than the Internet.

Hi Patti,

In the draft for accreditation you mention the surveys given to students after the workshops. Do you happen to have the total number of surveys and responses tallied?

Thanks, Celia

Sample pictures of the day taken by Ernie and Rose are attached.

SAMPLE COMMENTS

"The Library is a place to study, a place to find out information, and just a place of quiet from this hectic world."

"The library staff is very welcoming and polite to us students."

"Our library is an important resource center . Vital for our education."

"Need more space for quiet studying on lower level."

"Needs to be open earlier like at 7:00 a.m."

"I love the library."

Please tell us why you came to the library today: "To rent a computer."

"Open the library earlier."

"Please consider opening the Library on Saturdays again. At least every other Saturday."

"The library is important to me because it has many books that I need for class (like math books). I also can study in peace or do some research." "I came to use the math book for my homework and use the computers."

"Everything I'm doing can only have been done with the use of our library." "Need library open longer and on weekends."

"Everyone that works in here are great! Willing to help:)"

"The library is important to me because all of its resource, I need it for each one of my classes, books used, computers and copy machines."

"A library is our second brain...it helps us to think and download information!"
