6. New Business-
  - Proposed Parking Fee Increase-They want to raise parking permit fee to \$100. It hasn't passed yet, but they have tried two times to raise the fee.
  - There are questions about how the parking fees are used, it does not appear that all of the parking fees that are raised are going to the maintenance and security of the parking lots. It appears that the funds are being used for other purposes.
  - There is a concern that the numbers for the parking lot budget are inflated to show a deficit so that they can raise the fees. For example, it states that there are 8 security officers for the parking lots, but it is observed that there are not 8 security officers in the parking lots at all times.
  - A suggestion was made to invite Charlie Ng to explain the Parking Lot Budget and to answer our concerns
