TOPIC	DISCUSSION and ACTION
Approval of September 22, 2010 Minutes	Minutes were approved
Technology Plan – Rick Hrdlicka	Rick presented the final draft of the Technology Plan to the group. Consensus was to approve the draft Technology Plan as is.
SBVC Planning Model – Deb Daniels	The current Planning Model (which is submitted in the accreditation report) was last updated in 2008 and needs to be updated to reflect recent changes.  The group reviewed the current model and made necessary changes. Deb and Stacy will get the planning model updated and send to the group.
District Strategic Plan – Deb Daniels	Deb handed out and reviewed the "Overview of Strategic Directions, Goals, and Alignment with College Plans" document which outlines the districts strategic direction and goals, and how they align with each of the colleges goals.

### Liberal Arts Degrees – John Stanskas On behalf of the Academic Senate and Education Policy Committee, John reviewed the Limitations of Associate of Arts Degrees with the council for consideration of one of the following actions to be recommended and forwarded to the Student Policies & Scholastic Standards committee:

- 1. For students pursuing multiple areas of emphasis, each course can be counted in one area only.
- 2. Students may earn only one Associate of Arts Liberal Arts degree in one area of emphasis.
- 3. No change, leave policy as is.

The group discussed potential outcomes for each area. Consensus was to forward action item number 1 (listed above), and include requirements in the catalog for the next academic year.

### OTHER

Academic Calendar 2011-2012 – Gloria Fisher (on behalf of Larry Buckley)

Gloria informed the group that the 2011-2012 Academic Calendar was rejected by District Assembly at its last meeting due to some conflicts regarding graduation dates for both campuses. The group discussed possible recommendations for the committee to present at their next meeting to finalize the academic calendar.

### San Bernardino Valley College

San Bernardino Valley College (SBVC) is a comprehensive community college offering a full range of degrees, transfer programs to four-year institutions, and certificates in a wide range of careers. Fully accredited through 2014, SBVC is a regional leader in career and technical education with programs in nursing, human services, automotive, machine trades, welding, electrical, and dozens more. Weekend, online, evening, short-term, and distance-learning classes are available along with classes in Big Bear. The SBVC mission is to provide quality

education and services that support a diverse community of learners. For more information, visit www.valleycollege.edu, follow campus news on Facebook and Twitter, or call (909) 384-4400. The college is located at 701 S. Mt. Vernon Avenue, San Bernardino, CA 92410.

### Vision

San Bernardino Valley College will become the college of choice for students in the Inland Empire and will be regarded as the "alma mater" of successful, lifelong learners. We will build our reputation on the quality of our programs and services and on the safety, comfort, and beauty of our campus. We will hold both our students and ourselves to high standards of achievement and will expect all members of the college community to function as informed, responsible, and active members of society.

### Mission

San Bernardino Valley College provides quality education and services that support a diverse community of learners.

### Challenges and Opportunities

SBVC is facing challenges in funding, competition, changing demographics, escalating constituent expectations, underprepared students, and a growing demand for access to online educational services. As with all higher education institutions, SBVC is affected by an extraordinary level of change, especially in the area of technology. The ever-increasing rate of change requires that SBVC continuously monitor the horizon for emerging trends for future success while maintaining the delivery of quality education services to their current constituents.

Transforming these challenges into opportunities is the fundamental goal of the SBVC IT Strategic Planning effort.

### Strategies for Success (2010-2013)

This Strategic Plan describes SBVC's direction for technology through the adoption of six strategies that are designed to move the institution toward its future vision for technology. The remaining sections in this plan explain the process used to develop these strategies, introduce the supporting goals for each strategy, demonstrate alignment with the Districts Planning Imperatives, and provide an implementation plan for each strategy and supporting goal.

- **Strategy 1.** Provide exemplary technology resources and support while maintaining fiscal and environmental responsibility.
- **Strategy 2.** Provide access to web-based services and resources while maintaining a secure environment.
- Strategy 3. Encourage external technology partnerships with businesses and other organizations to foster an environment that will prepare our students for the future.
- **Strategy 4.** Campus and District entities share information and collaborate on technological initiatives for developing an environment of unity and cohesiveness.
- **Strategy 5.** Provide a fiscally responsible, centralized approach for technological support and resources.
- **Strategy 6.** Work cooperatively with the Office of Professional Development to provide appropriate technology training.

### The SBVC Campus Technology Strategic Plan

### Purpose

The SBVC Information Technology (IT) Strategic Plan provides a comprehensive roadmap for utilizing technology to improve the overall performance of the institution. The three-year plan presents focused strategies, and supporting goals, which will move the institution closer to realizing its vision.

### Process

This plan is built on a foundation of IT strategic planning that began at SBVC in 2001. Each plan has enabled SBVC to navigate the changing environment and successfully position itself for the future. This plan has been modified regularly since its inception, and this particular version has been revised and updated by the Technology Committee during the 2010-2011 academic year. It will remain in place until June 2013, when it will be revised and updated once again.

SBVC's Technology Committee is responsible for the IT Strategic Plan and is charged to explore and encourage innovation in the use of technology, including the support and training of faculty and staff in the use of technology for academic and management applications.

### Technology Committee Members

Hrdlicka, Rick (Co-Chair)	Director, Campus Technology Services
Notarangelo, Joe (Co-chai	r)Assistant Professor, English
Angelo, Dan	Associate Dean, Enrollment Management
Bastedo, Dave	Professor, Biology
Bojorquez, Ana	Accessibility Specialist, DSPS
Burton, Deborah	Instructor, Nursing
Dillard, Kristin	Assistant Professor, Mathematics
	Technology Support Specialist II, Campus Technology Services
Garnick, Everett	Director, District Computing Services
Hansen, James	Vice President, Administrative Services
Heibel, Todd	Instructor, Geography
Hunter, Courtney (ProDev	
Jackson, Jack	Professor, Philosophy
Jones, Edward	Assistant Professor, English
Kinde, Haragewen	Dean, Mathematics and Business
Kyle, Jon	Telecommunications Specialist, DCSInstructor, Business
Metu, Reginald	Instructor, Business
Race, Steven	Senior Media Specialist, Campus Technology Services
Roseli, Gabriel	Technology Support Specialist II, Campus Technology Services
	Supervising Senior Accountant, Campus Business Office
Tuvida, Alicia	Instructor, Nursing
Torrez, Michael	Instructor, NursingInstructor, Chemistry
Wall, Patty	Reference Librarian, Library

### Technology Vision

In 2010 the Technology Committee reviewed the technology vision and mission that support the SBVC vision and mission. The committee also revised the list of guiding principles for technology at SBVC.

### The committee's technology vision:

- Provide the campus with a plan for implementing current technologies.
- Provide Campus Technology staff with effective training that allows them to meet the technology needs of the campus.
- Provide our students with current technology resources to help them achieve their educational goals.
- Make a positive impact in our community.
- Cultivate partnerships that allow us to continue to serve and benefit our community.
- Effectively manage technology resources for the campus.
- Obtain revenue resources to adequately support technology initiatives.
- Provide universal accessibility to technology resources for constituents.

### **Technology Mission**

San Bernardino Valley College Campus Technology Services (CTS) provides the campus community with exemplary technology resources and support.

### Technology Guiding Principles

- We value effective training and professional development.
- We value the development of technologically literate students.
- We believe the effective use of technology will positively influence the community.
- We value partnerships with our community.
- We promote a climate of continuous improvement for current technologies.
- We embrace emerging technologies.
- We provide services that give faculty and staff the tools needed to reach higher educational standards.
- We strive for excellence in the services CTS provides to the college community.
- We focus on fulfilling the technological needs of the campus community.

### Strategies and Supporting Goals

In 2010 the Technology Committee revised the six strategies, and the supporting goals, based on information gathered during the strategic planning retreat of 2007, to reflect accomplishments and changing needs.

**Strategy 1.** Provide exemplary technology resources and support while maintaining fiscal and environmental responsibility.

### Supporting Goals:

- 1.1. Establish a repeatable process for determining the technology needs of students, faculty, staff, and administrators and incorporate the data into technology planning.
- 1.2. Establish, maintain, and adhere to minimum standards for classroom technology.
- 1.3. Provide faculty with the latest information on the trends in emerging technologies.
- 1.4. Provide accessible systems to the campus community as needed, following Section 508 guidelines.
- **Strategy 2.** Provide access to web-based services and resources while maintaining a secure environment.

### Supporting Goals:

- 2.1.Establish minimum standards for accessibility for all institutional websites to ensure compliance with Section 508 of the Rehabilitation Act.
- 2.2. Update and develop current web-based services on an ongoing basis.
- 2.3. Work with vendors to provide students access to discounts for technology related to their education.
- 2.4. Continue collegial support for online faculty.
- 2.5. Maintain minimum technology requirements for web-based and web-enhanced classes.
- **Strategy 3.** Encourage external technology partnerships with businesses and other organizations to foster an environment that will prepare our students for the future.

### Supporting Goals:

- 3.1. Develop technology-related partnerships with local businesses, organizations, and agencies.
- 3.2.Promote activities and events that connect local businesses with SBVC students.
- 3.3. Develop partnership opportunities with feeder schools, colleges, and universities.
- 3.4. Promote community awareness of SBVC technology resources.
- 3.5. Review local and national trends in technology to drive program development.

**Strategy 4.** Campus and District entities share information and collaborate on technology initiatives for developing an environment of unity and cohesiveness.

### Supporting Goals:

- 4.1. Identify, implement, and support electronic communication tools that serve all of our users.
- 4.2. Develop initiatives focused on improving synergy among campus departments.
- 4.3. Ensure communication among students, faculty, staff, administrators, and consultants with regard to technology.
- 4.4. Improve communication mechanisms that connect campus technology with district computing.
- **Strategy 5.** Provide a fiscally responsible, centralized approach for technological support and resources.

### Supporting Goals:

- 5.1. Implement a campuswide centralized computing structure.
- 5.2. Advocate for an expanded technology budget.
- 5.3. Ensure prioritization of funding for current and future technology needs.
- 5.4. Develop partnerships and provide representation to the DETS ommittees.
- 5.5. Develop a central technical support structure for all technology needs, built around a core infrastructure.
- **Strategy 6.** Work cooperatively with the Office of Professional Development to provide appropriate technology training.

### Supporting Goals:

- 6.1. Provide appropriate technology training opportunities for all SBVC personnel through the use of diverse delivery methods that provide access to all.
- 6.2. Assess the preferred day/time and delivery methods for training sessions in order to maximize participation.
- 6.3. Encourage the development of curriculum that prepares our students for success with web-based and web-enhanced courses.
- 6.4. Provide individualized technology training for faculty and staff.
- 6.5. Provide access to conferences through alternative methods to offset the effects of declining travel funds.
- 6.6. Provide accessibility training to faculty and staff for Section 508 compliance.
- 6.7. Provide training in the use of accessibility software where needed for Section 508 compliance.

## Alignment of Technology Strategies with District Planning Imperatives

## Implementing Strategic Objectives

The following Information Technology Strategic Plan Implementation Grid contains information that will assist SBVC in accomplishing its IT goals. Responsible departments will begin by developing tactical plans that are aligned with this plan. The departments will then use their tactical plans to develop technology budgets and for implementation of prioritized projects within the three-year timeline of this Strategic Plan. The Technology Committee will be responsible for updating the IT Strategic Plan annually.

Elements included in the Implementation Grid

- Strategies include the 6 technology strategies set by this plan for 2010-2013.
- Key Performance Indicators identify completion characteristics or milestones of progress for each strategy.
- Goals associated with each strategy identify implementation actions.
- Dependencies are those events or environments that must take place or be in existence before implementation of a goal can begin.
- goals as well as project plans. Where multiple owners are listed, the first individual or group listed has primary responsibility for ensuring the responsibility of these individuals or groups to develop the annual operating plans and appropriate budget requests for each of the assigned Responsible Party identifies the individual, department, or group that has responsibility for each of the IT goals. Typically it will be the implementation of the goal.
- FY (Fiscal Year) shows the implementation timeline for each strategy. An "X" placed in any single FY column indicates completion of a task in that year. Xs in multiple FY columns indicate multiyear efforts.
- Progress is to be documented as implementation of the strategies occurs.

		and private industry: SBVC has external partners and integrates these relationships into planning
		and program development.

**SBVC Academic Senate** 

**Education Policy Committee** 

Liberal Arts: Associate of Arts Degree/Limitations on Degrees

http://www.valleycollege.edu/Instruction/Files/Catalog/2010-

2011/SBVC Catalog 1011 Complete.pdf (pg. 135 & 136 for Liberal Arts requirements.)

### **Current Requirements**

"Complete 18 units in one 'Area of Emphasis' from those outlined below. For depth of study, a minimum of two courses in one discipline is required."

The following courses are cross listed between the three areas of emphasis:

Anthro 106 (cross listed between Biology and Humanities)

Anthro 107, 109, 110 (cross listed between Social Sciences and Humanities)

Hist 100, 101, 107, 137, 138, 139, 140, 150, 170, 171 (cross listed between Social Sciences and Humanities)

Relig 135 (cross listed between Social Sciences and Humanities)

### Considerations (any potential actions would follow catalog rights policies)

1. For students pursuing multiple areas of emphasis, each course can be counted in one area only.

This means that students have to complete 18 new units in another area of emphasis to qualify for an additional Liberal Arts degree.

2. Students may earn only one Associate of Arts Liberal Arts degree in one area of emphasis.

This does not preclude students from earning AA/AS degrees in other disciplines outside of Liberal Arts. It does preclude students from earning multiple AA degrees in the discipline of Liberal Arts.

3. No changes – leave policy as is.

This means that students can earn an AA degree in Liberal Arts with an emphasis in Social and Behavioral Sciences and an AA degree in Liberal Arts with an emphasis in Humanities and Fine Arts by doubling counting 18 units in the cross listed courses above or other similar combinations.

<u>Action</u>: Potential discussion/motion to vote on above consideration. Action needs to be forwarded to the **Student Policies & Scholastic Standards** committee.

*
